

Senior Accountant

Omni Powertrain Technologies mission is to support the success of our customers – manufacturers that build equipment for agricultural, off-highway, commercial vehicle and industrial markets. Our expertise is focused on powertrain design, and through our affiliated brands, we offer discrete components or system solutions for all types of powertrains – mechanical, hydraulic, or electrical. We have a comprehensive product line of mobile and work drive solutions, premier hydraulic and electric drive partners, and can provide engineered and proprietary solutions for OEMs.

We can assist our customers' product development efforts through our capacity to internally design, develop, and manufacture custom powertrain systems, or by supplying discrete components to their specifications.

In business since 1958, we maintain manufacturing and assembly operations on three continents, are privately owned, customer oriented and focused on succeeding in what we set our eyes on.
